## Dimensions

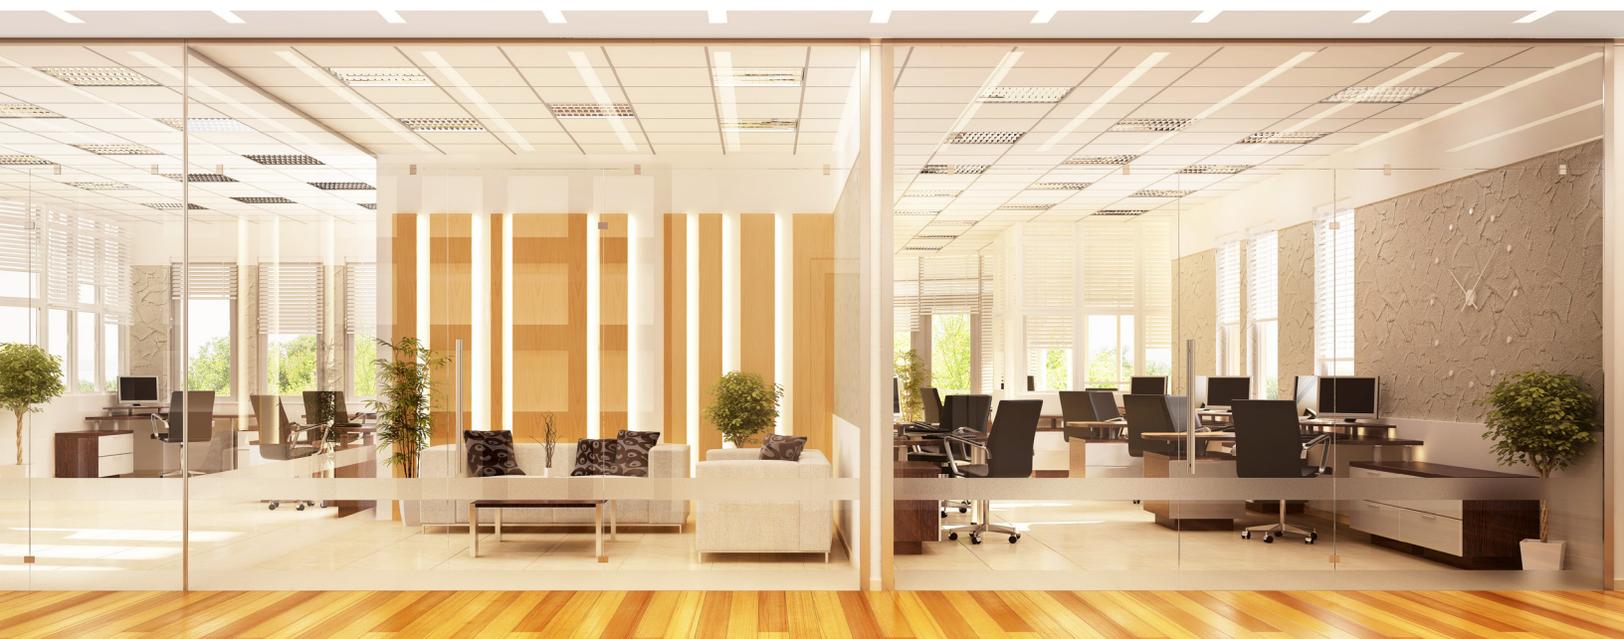

## Features

- Type A and B – works with or without a ballast, 3 in one ballast compatible
- Single or Double Ended Ballast Bypass
- Plug and Play direct with ballast or Double-ended ballast bypass for Direct Wire
- Shatterproof design meets NSF requirements.
- Life span 50,000hrs
- 5 Years Warranty

## Description

The new range of LED T8 Tubes makes it very easy to make the change from fluorescent to LED with up to a 50% saving in energy usage. The tubes can be used by simply removing the old fluorescent and replacing with the new LED Tube. further energy savings can be achieved if the ballast is removed from the circuit as the ALL LED T8 Tube range can be powered directly, reducing replacement and maintenance costs. Other benefits include, no mercury and an extra-long lamp life.
