Description

The new and improved Ulti-Bay has been redesigned using the latest LED technology. Featuring the patented Twist&Lock Sensor, which has been designed for installation into the center of the Highbay, without the need for any tools! Tool free installation of the easily programmable Microwave Sensor into the heart of the Ulti-Bay maintains the horizontal balance of the super lightweight Highbay for optimum aesthetics. Available in 100w, 150w, and 200w versions.

IES files available on the ALL LED website.

Features

- Significant Energy Savings
- Maintenance Free
- Suitable for Wet Location (IP65)
- Easy Install Twist and Lock Microwave Sensor*
- Remote Control for Sensor
- Instant On/Off, No Restrike Delay
- 50,000 hours (L70)
- 5 Year Warranty

- Maintenance Free

Description

The LED Wash-Down NSF Certified Highbay meets the highly maintained and regulated guidelines to be used in food processing areas. The Ulti-Bay is designed to help prevent dirt, dust, or food from collecting on the surface of the Highbay.

The Ultra-modern design can withstand high pressure cleaning and freezing temperatures, for even the most stringent of food preparation environments.
